# COMMEND AND GENETEC SOLUTION

### Topology

## COMMUNICATION SYSTEMS BY COMMEND

When every second counts, people need technology not just to work, but to work with one hundred percent reliability - anywhere, around the clock. At Commend, we are aware of our responsibility. That's because millions of people trust the Commend brand and our products every day, whether at a London tube station, a car park in France or a hospital in the United States.

As a global market leader with more than 45 years of experience in speech transmission, we provide not just Intercom and video connections with interfaces to third-party systems, we also provide products that open up new possibilities for integrated solutions. Commend is the preferred choice for hands-free voice communication systems all over the world.
